

**SAGUENAY BRIEF NEWS**  
JEAN, ANNE, MYRIAM AND JEAN PHILIPPE GRENIER

August 1st 2018,

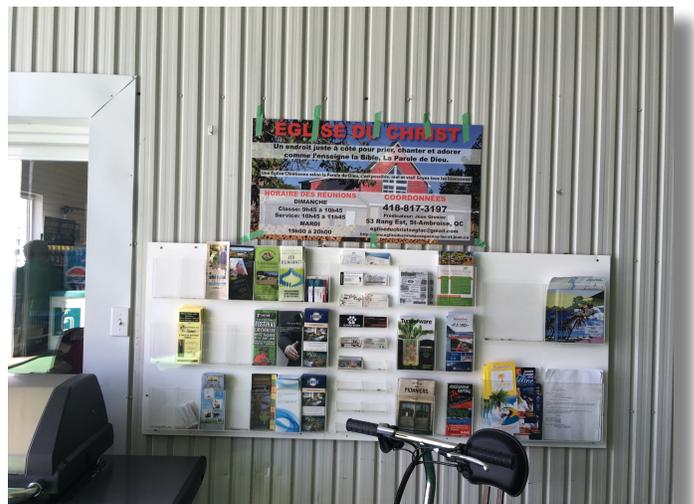

Dear brethren,

I hope that you are all doing fine? We are doing great! We are still having a very hot weather (between 80°F to 98°F. We just heard this morning that it was the most hot month of July we ever had all over Quebec! We do not have air conditioning and since we are not used to it, we have difficulty to put up with it. However, we know that cold weather will come as it does every year. So we enjoy the hot temperature anyway!

We have our **Annual Brotherhood Day** on the coming **11 of august**. You know that we try to gather together as many as possible brethren from all over the Province of Quebec. We are usually around 55 people. Since the people of Quebec are French speaking at about 90%, it is all in French. It is our third one. This gathering begins at 9:30 AM and finish at 2:30 PM. The theme is "**How we are saved by grace**". I included the program attached in the E-mail. The activity is published into the city bulletin (1820 copies) that was distributed today. Thank you for your prayers!

Our neighbour, the RV Park, has now **2 signs of advertising**: one on their recreative building and the other, inside of the most important building (RVs showroom) on their bulletin board (see pics bellow — the green tapes were there to hold temporary while the glue was drying). I talked personally to the owner who allows us to display our presence permanently! I think this man needs a couple of rewards from Heaven! :) He was very kind to me with no objection. He asked me of what confession we were. He noted that he was not practicing very much his religion, with a little bit of humour. He is a non-practicing catholic as most of Quebecers.

Since the day I have fixed these advertising sings, we have more circulation into the church building entrance. I talk regularly to people that I meet or that intercept me. We really see people who are getting closer to visit. We have not yet received any negative comment or opposition of any kind. We appreciate your prayers for all these people we meet and evangelize!

Bellow you see a **for sale sign** of the land just beside the building. It is there since over one month. If anyone of you would be interested to purchase it, it is 53 309 p2 and they ask \$43, 500 CAN (around \$35,000 US). If I was able to purchase it. I would in order to keep it for the use of the Church/Work here

in the futur. However, I can not afford it! We have seen several people visiting it but it is still for sale. The Land is about 115' wide by 460' long. Owner telephone: 418-213-1493 or cell 944-5931. At worse, we hope and pray for a good neighbour. May God does His will!

Bellow are the back front sides of the building. The paper that covers it now is about to get rotten. It should have been done since about 3 years — according to the recommandation of the instruction of the material. I got the funds recently from the brethren of Norval Park. We will **fix the steel** soon after our Brotherhood Day. This also includes the **roof of Anne's office** that has leaks (at home).

We have now been advised yesterday by the **city hall inspector** that we have until next Spring, May 29 2019, to **build the dormitory** of the building, otherwise this will be not possible anymore. The inspector told me that it is now or never. Please pray with us about it for we do not have any fund for it and I made the commitment to our eldership not to engage in this construction myself. Indeed, I really concentrate on my work of Evangelism and Preaching... I will give you more details about this matter soon.

Peace and joy in Christ!

Jean and Anne
